## Semi Permanent Eyelash extensions – curlier, longer and thicker lashes

### *What are Eyelash Extensions?*

*Eyelash extensions are a revolutionary new product that lengthens & thickens eyelashes. The lashers are single strand of synthetic eyelashes that are curved & tapered to replicate a natural lash. They are applied to each individual eyelash on a hair by hair basis for a natural, elegant and luscious look. Eyelash extensions are perfect for a special occasion or for a day to day wear.*

### *What do they look like and how do they feel?*

*With correct application eyelash extensions are totally weightless and they should look and feel completely real and natural.*

### *How do eyelash extensions last?*

*When applied properly, semi permanent eyelash extensions last the length of the natural cycle of your lashes. Our glue is specially formulated with a unique waterproof bonding agent designed to last. The natural cycle of your lash is between 60 & 90 days. Basically when one of your lashes is ready to drop out, it will take the eyelash extension with it, this is where you will start to see your new lashes thinning & why we recommend regular top ups to keep them looking nice and full.*

### *How often should I get top ups?*

*We recommend a top up every 2 – 4 weeks. This varies from person to person, dependant on how careful you are, whether you listen to after care advice re: 'what not to do' and also depends on how quickly your natural hair grows. Touch ups generally take a short time and are relatively inexpensive.*

### *Can I apply Mascara to my new lashes?*

*One of the main advantages of eyelash extensions is never needing mascara again, however we have an exclusive mineral mascara, that coats the extensions and it has absolutely no chemicals and is 100% pure mineral based. As the mineral mascara is water based it is easily removed in the shower just with water. DO NOT USE OIL BASED OR WATERPROOF MASCARA.*

### *Can I swim, shower, exercise or visit a spa while wearing eyelash extensions?*

*Yes, our bonding agent allows you to shower, swim exercise & spa worry free.*
